SPECIALTY COFFEE COMPLETE

CONSULTING • EQUIPMENT
PRODUCTS • SERVICE

Espresso Services is your **complete resource** for the business of specialty coffee.

Our focus? To **provide comprehensive solutions** for specialty coffee businesses of any size. From coffee shop start-ups to established national chain accounts, we have the track record and the experience, and we want to work with you.

THE ONE-STOP SHOP DIFFERENCE

Some companies provide one piece of the puzzle. At Espresso Services, **we look at the whole picture.** Our variety of equipment, products, service and training classes cover all of your needs in the specialty coffee business.

From the most advanced espresso equipment to the finest coffees and flavoring syrups, **we provide the tools and the expertise, on any budget.** For ongoing support, our factory-trained technicians are available 24/7 to keep your business running smoothly.

[COFFEE SHOPS]

Opening a coffee shop?

ESI has helped hundreds of entrepreneurs realize their dreams of owning their own coffee shop. Our proven formula is a successful combination of high quality consulting, equipment, and barista training. In fact, we help more people open coffee shops each year than any other company in the Midwest.

It is our specialty to help new coffee shop owners navigate the confusion of starting a new venture and on to the path to success. Our consulting includes barista training classes, menu development, coffee shop design & layout and more. We take a full support approach, that is the difference at ESI.

[RESTAURANTS & HOTELS]

Fine food, fine coffee.

Many top restaurants rely on Espresso Services Inc. for coffee solutions. Our state-of-the-art espresso equipment, coffee brewers and gourmet products guarantee exceptional coffee service to every table. From intimate bistros to large banquets, we have experience creating coffee stations that are efficient and easy to use.

From the silverware to the menus, you've planned right down to the last detail. Choose ESI to ensure that the dining experience is first class from the appetizer to the last sip of coffee.

[FOOD SERVICE]

Customize, consult and provide.

ESI has experience designing programs for all types of Foodservice applications including colleges, hospitals, churches, and corporate cafeterias. We know the fast-paced and challenging food service environment and that's why we have developed systems that are easy for every employee to manage. We include

menu development, recipes, hands on training, and other consulting services with every package.

When you're responsible for integrating specialty coffee into your food service program, ESI has a solution for any size application. Our packages also include installation, training, and products when needed.

[CHAINS]

More locations? No problem!

For over 10 years, ESI has worked with chain accounts. We have helped some of the best in the coffee industry manage their stores with technical service, consulting and products. Managing multiple locations provides complex challenges that require a higher level of organization and responsiveness.

As a result of partnering with chain accounts, ESI has developed proven capabilities that only a few companies in the specialty coffee industry can equal. Our successful approach includes scheduled preventative maintenance services, delivery of parts kits, water treatment management and 24-hour emergency service.

QUALITY COMES FIRST

LaCimbali, Mazzer and Azkoyen—**leaders in the espresso equipment industry**—are just a few of the brands ESI imports from Europe. As a direct importer, we offer the most **competitive pricing** on the highest quality espresso equipment available. For the **best in brewing technology**, we rely on Fetco, Bunn, and other domestic manufacturers.

TASTE THE DIFFERENCE

We import Lavazza Premium Coffees from Italy, Routin 1883 syrups from France, and distribute the best domestic products such as DaVinci Gourmet so that you can choose from **the finest selection** in the market. We also offer fruit and coffee smoothie bases, specialty frappe mixes, chai and gourmet hot cocoa—**everything you need for an outstanding hot and cold drink menu**. For drip coffees, we partner with local coffee roasters and brokers to offer a wide variety of fresh roasted coffee, or a select assortment of green coffee varieties if you want to roast your own.

HOW CAN WE HELP YOU?

CONSULTING • EQUIPMENT • PRODUCTS • SERVICE

ESI is a full service importer and wholesale distributor of specialty coffee equipment and products in the Midwest. We serve as a comprehensive supplier and educator to specialty distributors, coffee shops, restaurants and food service professionals. ESI strives to meet or exceed customer and employee needs and expectations
